Subject: FW: Newsletter 106: Public Interest Science in Industry-Sponsored Universities

To the Human Rights Commission

Dear Professor Trigg,

I note that you did not reply to my letter dated 29 September 2015, titled 'Censorship and Misrepresentation in the Australian Media' that demonstrates how the public's voice on vaccination policies is being removed from debate. Therefore I am providing you with another opportunity to respond. Here is a link to the previous email that I sent you published on my website <http://vaccinationdecisions.net/wp-content/uploads/2011/09/HRC-GT-150929.pdf> and below is a link to my latest newsletter copied to many academics at UOW.

I have also provided you with the attachments that I sent previously with Newsletter 81. The academics copied into this newsletter have observed the false and misleading information that is being spread about my reputation and research in the media and on social media.

Tim Wilson was 'Freedoms Commissioner' from 2014 to January 2016 and many breaches of human rights occurred in federal legislation during this time. Here is a summary of the loss of human rights that has occurred over the last two years <http://vaccinationdecisions.net/commissioner-tim-wilson-and-human-rights-in-australia/>

I hope that you will reply to this email promptly as many Australians are very concerned about their loss of human rights in government legislation.

Yours Sincerely,
Judy Wilyman PhD
