To

Due to the new track and trace rules that have been introduced by the WA government I feel that I will have to resign from the club/organisation. As many people know I have extensive knowledge on the control of infectious diseases and this contact tracing of healthy people has nothing to do with a pandemic virus. The new regulations are an invasion of our freedoms and privacy, and they are being removed *without justification*. The doctors, scientists and researchers who are presenting the flaws in the *industry-science* that is being used by governments, [are being silenced on this issue](#). The media is censoring the debate of this topic and people are being bullied into believing in this 'pandemic' that requires a 'vaccine' as the solution. I can no longer participate in this fraud and allow our freedoms to be removed.

Legal action was started in Australia against *Scott Morrison* and *all state premiers* on [27 August 2020 due to the fraudulent use of PCR tests](#) in healthy people that have been used to produce 'cases' of a flu-like illness. This test cannot diagnose disease and in [Portugal this has been accepted in the courts](#) as a useless test that is being used to remove human rights. The prediction of a global pandemic was made only on a mathematical model *using flawed industry assumptions* - it was not based on **real data** and globally it is well established by doctors, lawyers and researchers that this new virus represents *no greater risk* than a normal flu virus.

Here is a link to the *Concerned Lawyers Network in Australia* that also started legal action (6 November 2020) on the [corruption in the government's response to COVID19](#) disease. Cases of this disease rapidly declined from August onwards in Australia as legal action was taken. Legal action has also begun in the International Courts and is being led by a group of [German and European lawyers and medical experts](#). Please also follow Professor Delores Cahill and the work of the [World Freedom Alliance](#) that will be advising many countries, including Australia, on the legal action we are taking. Also, the [Great Barrington Declaration](#) by over 60,000 doctors and scientists and >680,000 citizens will confirm this information.

Due to my extensive knowledge on this topic, I will not be participating in the contact tracing of healthy people that has no medical basis and nor will I accept any vaccine due to the vaccine injuries and deaths that are being covered-up by the Australian government. Coercion in the use of any vaccine (medication) is a crime against humanity due to the diversity of our genetics.

It is with regret that I feel I must take this step but the 'new normal' they are creating based on false information means that our freedom's (and our children's future) are already lost if we do not take a stand to protect them now.

I will look forward to re-joining sometime soon when this fraud has been exposed.

Kind regards,

.....
