We all care deeply about the health of our family and our communities, but are we informed enough to be making the right decisions? In a world full of conflicting opinions, conflicts of interests, and Government pressure, we need to be more diligent than ever. The stakes are high. Our medical freedom, and the health of our loved ones are on the line.

The Loss of Health Freedom: Our Genetics and Coercive Vaccination

Join us for an informed and enlightening talk by Judy Wilyman PhD, one of the leading experts on the subject. The talk will be followed by a Q and A. Your voice and your presence are valued at this important community discussion.
