

## Newsletter 172 Undone Science in Government Vaccination Policies

7 September 2017

Here is the letter that I sent to 60 academics at the University of Wollongong:

**Open Letter (6 September 2017)**

**University of Wollongong (UOW) Academics**

**Copied to UOW Vice-Chancellor, Paul Wellings**

Dear Professors Heather Yeatman and Alison Jones,

Here is the first instalment of a video series describing my research at the University of Wollongong and the undone science in the Australian government's vaccination policies that demonstrates vaccination policies are not based on *evidence-based medicine*.

This 7 min video also describes why UOW transferred this research to the field of Social Sciences.

Dr. Judy Wilyman "[The undone science in government vaccination policies](#)" ([Transcript here](#))

Please provide your response to this information because NSW is currently introducing the **No Jab No Play** policy based on false information about the control of infectious diseases and incomplete scientific evidence of the harm this policy will cause to the Australian population.

The involvement of UOW academics in suppressing the scientific debate on vaccination in Australia will make you complicit in the harm this policy will cause to human health. I look

forward to your prompt response.

Dr. Judy Wilyman

*Bachelor of Science, University of NSW*

*Diploma of Education (Science), University of Wollongong*

*Master of Science (Population Health), Faculty of Health Sciences, University of Wollongong.*

*PhD in [The Science and Politics of the Australian Government's Vaccination Program](#), UOW School of Social Science, Media and Communication (re-named the School of Humanities and Social Inquiry in 2014).*

## **NSW No Jab No Play Legislation**

The NSW parliament will vote on this policy on Tuesday 12 September 2017.

Please read the information in the petition (below) because it describes the discrimination in education that children will receive if their parents have educated themselves on the dangers of vaccines and choose not to vaccinate or to selectively vaccinate. This will be enforced by the use of warrants on the grounds that these parents are 'neglectful' - instead of educated. This is described in the petition '[Say NO to the Discrimination of Children in Education based on Vaccination Status](#)'.

I hope you will sign this petition and show your opposition to this unjustified policy by attending the rally on Tuesday in Martin Place, Sydney from 10 am - 2 pm. Many speakers will be present describing the harm this legislation will do to Australian society.
