

Newsletter 221 Australian Prime Minister, Scott Morrison, Involved in Removing Human Rights for Many Australians

1 February 2019

I would like to start by correcting the date in **Newsletter 220** (23 January 2019). This newsletter described the biased, fear mongering and anecdotal evidence that is being used by the mainstream media (globally) to manipulate the public into using all the vaccines that are being developed, even though *they were not in existence* when infectious diseases were controlled in developed countries.

Here is the link to Newsletter 220 with the corrected date:

Newsletter 220 [The Corruption of the West Australian Media Reporting of Vaccination](#)

Newsletter 220 describes how the current Australian Prime Minister, Scott Morrison, removed human rights for many people in 2015 (as the Minister for Social Services 2014 - September 2015) by implementing a policy (**No Jab No Pay**) that enforces 16 vaccines on children for all parents *who depend upon* social welfare and childcare benefits to live.

This policy coerces parents into using all 16 vaccines by linking hundreds of dollars in welfare and childcare benefits to receiving the **full** schedule of vaccines - financial bribery to use a medical intervention for healthy people.

This policy was implemented in 2016 with the slogan "Creating Choices for Families" when it was **removing** choices for families.

To 'fully vaccinate' in 2016 means using *16 vaccines (~45-50 doses up to 14 years of age)* as compared to 7 vaccines used in the early 1990's *when infectious diseases were not of serious concern in developed countries* and no vaccines were mandatory.

Vaccines have always been voluntary in Australia and the Australian government did not present any evidence to support these policies when **Scott Morrison** and **Christian Porter** (Social Services Minister from September 2015 to December 2017) implemented them in January 2016.

False Information Provided by Peter McIntyre (Government NCIRS) in the Mainstream Media

Peter McIntyre, the former deputy/director for **20 years** of the government *National Centre for Immunisation Research and Surveillance* (NCIRS), refused to present the evidence for the **No Jab No Pay** policy at a public forum at the University of Technology Sydney in October 2015 - prior to its introduction.

Peter McIntyre and 45 other politicians and health professionals would not publicly debate the evidence for these social welfare policies in 2015. Here is the evidence of them declining to attend a public forum on this topic in 2015 - [Questions and Answers: No Jab No Pay/Play Policies](#) (UTSydney).

In January 2016, after my PhD was published (10 January 2016), **Peter McIntyre** provided false information about my research to reporter, **Kylar Loussikian**, (from News Ltd, Murdoch Media) and many defamatory articles were written about me in the Australian newspaper (13 January 2016).

Instead of debating the science presented in my PhD, **Peter McIntyre** led the industry-lobby group, **Friends of Science in Medicine**, push to have my PhD removed by organising a petition that used false claims to over-ride the university's policies for approving PhD's.

This strategy failed and the **University of Wollongong** confirmed the integrity of the academic process in approving my PhD.

In September 2018 **Peter McIntyre** again provided false information about my qualifications in a defamatory article written by [Kylar Loussikian](#) in the Sydney Morning Herald (23 September 2018).

At this time Peter McIntyre was a participant in a court case that was still before the courts and the **government's** team in this court case leaked my affidavit to the **Sydney Morning Herald** - a criminal offence by breaching Section 121 of the Family Law Act.

Peter McIntyre provided false information about my research and qualifications in this media article and it was used to influence public opinion of my reputation and work in public health.

This was followed by a second defamatory article in the mainstream media by [Jane Hansen](#) (24 November 2018) again with false and misleading information and this led to the cancellation of the court hearing regarding the vaccination of four children (12 December 2018).

Pressure was applied to the mother by informing her that if she contested vaccination in the courts she would lose the custody of her 4 children and the judge would rule in favour of the government **regardless** of the evidence.

Hence the vaccination of the children **did not** form part of this court hearing on 12 December 2018 and the government's strategy in this case before the Federal Circuit Court succeeded in preventing the science from being debated before an independent court.

Will anyone be held to account for this breach of Section 121 of the family Law Act?

Newsletter 220 also shows the corruption in the lobbying process in Australia that allowed [Richard Di Natale](#), **leader of the Greens** to provide false and misleading information about vaccines and vaccine lobby groups in the Australian Federal Parliament.

This led to **Scott Morrison and Christian Porter** to approve social services policies that **removed** choice in the use of vaccines because many people cannot live without these social services - *a breach of the international human rights covenants that Australia has adopted. I.e. the Nuremberg Code and the International Covenant for Political, Economic and Cultural Rights.*

Whilst Australia has endorsed international human rights covenants that protect our right to bodily integrity and to non-discriminatory social services, I have been informed that another piece of legislation is needed to **enforce these covenants**.

This legislation has not been implemented in Australia and the current **Human Rights Commission** *does not have any powers* to enforce individual human rights on health issues.

Hence many Australian's right to choice in this medical intervention has been removed by using false and misleading information provided by **Peter McIntyre** and other prominent industry-lobby group activists from the [Australian Skeptics/SAVN/Friends of Science in Medicine](#) lobby groups that have a powerful influence in the media and many health and medical institutions in Australia - and also in Wikipedia.

It is a morally corrupt government that claims on the one hand that vaccines **are not enforced** in Australia but on the other hand it **removes** the people's choice in their use of this medical intervention to participate in society.

A situation that has occurred because the director of Australia's vaccination program of 20 years, **Peter McIntyre**, has not been made accountable for the claims he is making about vaccines or about my qualifications in the media and to the Health Department.

In July 2016 Peter McIntyre also refused permission for his 1994 PhD on the HIB vaccine to be published in open access on the **University of Sydney** repository as mine has been on the [University of Wollongong](#) since January 2016. This has enabled **Peter McIntyre** and other activists with a powerful voice in media and politics to ridicule me with false information in the official channels.

So in contrast to **Peter McIntyre's false media statement** that 'Judy Wilyman is not willing to participate in any objective scrutiny of the evidence', it is **Peter McIntyre** that will not participate in any objective scrutiny of the evidence.

My PhD has been publicly available to objective scrutiny for three years and it is supported by many national and international academics.

The Australian government has not provided any evidence for the need for mandatory vaccination with 16 vaccines in Australia and they have not allowed any public scrutiny of this policy. The corruption of democracy and the lack of accountability for public servants in Australia is demonstrated by the government [suppression of the vaccination debate](#).

I have experienced a corruption of the academic process through the official channels in Australia in debating vaccination science (including the Health Department, City Councils, the University of Wollongong, and the Federal Circuit Court) and it is time for the Australian community to take action to make politicians accountable for this corruption of insitutional processes that has lead to the removal of human rights in Australia.

Judy Wilyman PhD

Bachelor of Science, University of NSW

Diploma of Education (Science), University of Wollongong

Master of Science (Population Health), Faculty of Health Sciences, School of Public Health, University of Wollongong.

PhD in [A critical analysis of the Australian government's rationale for its vaccination policy](#)' (the science, politics and ethics of Australia's vaccination policies), UOW School of Humanities and Social Inquiry.

Website [Vaccination Decisions](#)

Some of the Ingredients in Vaccines:

Did you know that antibiotics are in most vaccines? Many people are allergic to antibiotics and using any vaccone carries the serious risk of anaphylactic shock to this and many other vaccine ingredients. Are you being informed of this before you give

Supporting Public Interest Research

I would like to thank everyone who has supported my research and newsletters over the last 5-10 years. If you have appreciated this unfunded independent research and debate of children's health I hope you will consider a [\\$5 donation](#) for the up-keep of my

consent to giving your newborn baby a vaccine?

Please consider whether you want these substances injected into the tissues of your new born infant before the blood brain barrier is developed at 6 months of age or their other body systems. These ingredients and more are present in vaccines and the vaccination schedule has expanded to 16 vaccines requiring 52 doses from birth to adolescence.

And the '**new norm**' - allergies, anaphylaxis, Chronic Fatigue Syndrome (CFS), autoimmune disorders (diabetes, childhood rheumatoid arthritis, arthritis, multiple sclerosis etc.), thrombocytopenia purpura (ITP), autism, speech delay, neurological disorders, encephalopathy, meningitis, ADHD, childhood cancers, and many more.

website and continuation of my voluntary newsletters.

Only funded research is promoted to the public and universities do not promote student research. Hence the need for my website and newsletters to promote my independent research that is in the public interest.

My website [Vaccination Decisions](#) became necessary because the University of Wollongong [is not required to rectify the academic record to the public](#) when organised lobby group activists, such as **Australian Skeptic Inc / SAVN**, and other **activists from the powerful industry-medical complex** provide false information about my university research in the mainstream media.
