**Newsletter 266:**

## **Australian Government Commits Crime against Humanity with Coercive Vaccination Policies**

### **Resources**

1. [PLANDEMIC: Part 1](#) - Exposing the Corruption in Vaccination Science - **Dr. Judy Mikovits**.
2. [PLANDEMIC: Part 2](#) - Indoctrination. A must see video to understand how populations are being controlled by the media using false science to justify violating the **Nuremberg Code**.
3. [Legal Action is being taken against the Australian Federal and State Governments](#) - re the Mandating of the Influenza Vaccine for aged-Care Facilities. This letter explains your rights under the **Biosecurity Act 2015** and it also explains that the government does not have the power to mandate a medication with coercive benefits. The lawyers have given the State governments until **27 August 2020** to remove the mandatory flu vaccine from Aged-Care facilities.
4. **WA Real** - '[A Question of Medical Freedom and Sovereignty over our Own Body](#)' - **Dr. Judy Wilyman**. In this interview I describe the corruption of the political and academic processes in Australia that have resulted in the censorship of the vaccination debate and false science being used in Australian government vaccination policies.
4. The [Australian Vaccination Network Newsletter](#) - Coercive Australian COVID19 policies and the conflicts of Interest revealed in an interview with **Elizabeth Hart**. Also dates for the next Qld Vaxxed tour.

24 August 2020

**When laws are wrong and place the community at risk *the public has a duty to disobey the law.***

#### **Australia's Coercive Vaccination Policies are not for a Legitimate Public Health Purpose**

Australia has coercive vaccination laws that ban healthy children 0-5 years of age from early childhood education if they have not received a minimum of

12 (~24 doses) vaccines. Parents also lose welfare benefits if children are 'unvaccinated' (that is, do not have 12+ vaccines).

If this policy - the **No Jab No Pay/Play** policy - was for a **legitimate public health purpose**, wouldn't it be implemented in all **Health Acts** in Australia first **before** it was approved in a **Social Services** policy?

But it was not. Vaccination has never been compulsory in any '**Health act**' in Australia and there was no mandate for a vaccine **in any Health act** when **Scott Morrison** (the Minister for Social Services at the time), mandated 12 vaccines for children in **social services polices** in 2015. This is because [vaccines did not control infectious diseases.](#)

This means there is **no legitimate public health purpose** for mandating policies that remove human rights from **healthy children** and their parents. Governments cannot infringe on human rights when there is no **legitimate public health purpose** to do so.

In addition, the measures to reduce risk must be **proportionate to the risk** of infectious diseases. In 2015 there was **no increased risk from any infectious disease** in Australia. Hence, mandatory vaccination is not justified and the Australian government has overstepped its powers by implementing coercive polices that deprive citizens of their right to social services.

### **The Australian Government and Medical Board of Australia are Committing a Crime**

Vaccination is an invasive medical procedure **for healthy people** and doctors have breached their ethical code of medical conduct by supporting government vaccination policies that medicate **a genetically diverse population.**

A basic tenet of medical practice is that all medications must be specific to the persons individual circumstances and their genetic-make-up. Yet the **Australian Health Practitioners Regulatory Authority** (AHPRA) prevents doctors from informing patients of their risk to vaccines that results from their **genetic-make up** and that have been listed on the [package inserts for decades.](#)

The **Medical Board of Australia** (MBA) arbitrarily reduced the medical exemptions to vaccination when it introduced coercive vaccination in 2015. Plus, it removed conscientious, religious and philosophical exemptions for childhood vaccination *without public debate.*

Doctors in Australia are labelled 'anti-vaccination' if they [present the risks of vaccines](#) to their patients that are listed on the package inserts of vaccines, and they are de-registered from the profession.

Powerful medical-industry lobby groups report doctors, nurses and midwives to AHPRA if they make any public statement about vaccines that can be considered '**antivaccination**'.

This situation represents **a crime against humanity** as it puts human health at risk. Vaccines are causing [thousands of injuries and deaths every year](#) that are not being recorded or publicised by the **mainstream media** or the corporate-dominated **World Health Organisation** advised by the **GAVI alliance** that includes the **Federation of Pharmaceutical Companies**.

Last week **Scott Morrison**, Australia's Prime Minister, stated "we will be making the COVID19 vaccine as mandatory as possible". That is, they will be using coercive measures such as the '[No Jab No Jobkeeper](#)' and '[No Jab No Travel](#)' to coerce people into using this vaccine.

When it was pointed out that this vaccine cannot be proven safe and effective in less than 10 years (because that is what the government has been telling us for decades), the **Australian Medical Association** (AMA) has backflipped to say "...the fast-tracked approval process could create a risk of harmful side-effects." Therefore it is urging the government *not to compel* Australians to get the COVID19 vaccine.

Yet the AMA did not inform the Australian public that the **genetically engineered HPV vaccine** was [fast-tracked in 2006](#) to claim that it would prevent cervical cancer in 2006 – a claim that is unsubstantiated with empirical evidence. And when cervical cancer was [not a high-risk disease](#) for most women in developed countries in 2006.

Further, the **AMA** did not speak up when the **genetically engineered** Swine-flu vaccine was introduced for the planned swine-flu 2009 'pandemic'. This fast-tracked vaccine was introduced in Australia in 2010 and resulted in [hundreds of seizures and convulsions](#) and permanent neurological damage resulting in CSL **removing its Fluvax vaccine** for children from the market.

There is no "*extensive science behind the safety of vaccines*" as **Omar Khorshid**, the AMA president, [falsely claims in this article \(24 August 2020\)](#) and he has only been forced to say this because many more people are awake in 2020 to the [corruption in the science of vaccines and the risks](#) they pose to human health.

The **Australian Medical Association** (a medical-industry lobby group for doctors) and the **Australian Health Practitioners Regulatory Board** and the **Australian government** are participating in a **crime against humanity**.

Until doctors, nurses and allied health professionals are given back their autonomy to advise patients according to their assessment of the medical literature *community health is at risk*.

Human health is at serious risk when any medication is mandated for the whole population. Corporations are influencing our politicians to introduce measures that restrict our freedoms **based on non-transparent science**.

These infringements are also **dis-proportionate** to the risk of COVID19 in Australia. There is no scientific justification for social distancing, locking down or quarantining **healthy people** and transparent science is not being used to implement these measures. Further, there is corruption in the political process and media reporting of this planned coronavirus event.

Australians must demand transparency in statistics and scientific arguments before ANY freedoms are removed. This includes social distancing, the medical testing of healthy people, masks, lock downs, quarantining healthy people *without symptoms* and coercive or forced vaccination for benefits in society. Humanity is being attacked and harmed with these regulations.

The **medical-industry** complex is influencing Australian politicians with false scientific information and every citizen needs to challenge the government for transparency and accountability for the decisions it has made in this coronavirus PLANDEMIC.

### Indoctrination

[PLANDEMIC Part 2 - Indoctrination and the Suppression of Science](#) - **A must see to understand the media control of human behaviour and the re-writing of the historical control of infectious diseases.**

The **medical-industry** and **governments** are falsely claiming that 'vaccines create herd immunity' that has controlled infectious diseases. This has been claimed for the last three decades and it amounts to **indoctrination** because the [historical evidence](#) and the [risks of vaccines](#) do not support this claim - **and history is being re-written**.

This **myth** is being presented in **school/university curriculums** and in the

**education of doctors** – an education that is influenced by funding from pharmaceutical companies. This is pseudoscience and it is a serious risk to public health. It is also being promoted in the mainstream media due to powerful industry-lobby groups who influence media institutions.

### **Lack of Safety in the Vaccination Program**

In 2018 the US government lost a [Landmark Vaccine Lawsuit](#) that showed that the US government had not provided any safety reports for 32 years. In 1986 the US government removed all liability from the pharmaceutical companies for any harm caused by vaccines. Hence there is *no incentive for government regulatory boards*, the **US FDA** and the **Australian TGA** (that are 100% funded by industry), to be concerned about safety.

The US government did not report on safety for 32 years because there are **NO true** safety studies that have been done on any vaccine. A safety study must use ***an inert placebo*** in the unvaccinated group ***over an appropriate time period*** - these studies do not exist and this is why the US DHHS did not provide any safety reports for 32 years.

The suppression of the risks of vaccines in Australia is enhanced by not recording or reporting any deaths where vaccines are a **plausible cause and even the most likely cause**. Further, doctors state:

In Australia “***There is no requirement for a doctor certifying a death to make any documentation of an antecedent vaccination on a death certificate, even if the individual was of stable health prior to the vaccination, and deteriorated subsequently and terminally.***”

When governments do not investigate the correlation between the significant decline in children's health in a direct dose-response relationship to the vaccination program and they do not complete safety reports to ensure health is a priority, **and** they suppress the risks of vaccines in all media and on death certificates, **then they are not prioritising "health" in these policies**. They are prioritising **industry-interests**.

This crime against humanity must be stopped immediately. All **No jab No Pay /Play** policies must be removed, and the public must demand accountability for the science that the government is using to approve these policies that are removing fundamental human rights from Australians.

## About Dr. Judy Wilyman PhD

I have been studying the vaccination topic both formally and informally since 1993 when I vaccinated my first child. Like most people questioning vaccines, I have not come from an anti-vaccination position and the debate is not about pro or anti-vaccination. It is about safety, efficacy and necessity for each vaccine on the schedule. Are they all safe? And are they all effective and necessary?

In 2015 I completed a PhD at the University of Wollongong answering these questions.

My thesis is titled 'A critical analysis of the Australian Government's rationale for its vaccination policy'. In Chapter 7, I present a discussion of the claims made by the government about the safety and efficacy of vaccines that are not supported by scientific evidence.

Bachelor of Science, University of NSW

Diploma of Education (Science), University of Wollongong

Master of Science (Population Health), Faculty of Health Sciences, School of Public Health, University of Wollongong.

PhD in: [A critical analysis of the Australian government's rationale for its vaccination policy](#) (the science, politics and ethics of Australia's vaccination policies), UOW School of Humanities and Social Inquiry.

Website: [Vaccination Decisions](#)

## Supporting Public Interest Research

I would like to thank everyone who has supported my research and newsletters over the last 5-10 years. If you have appreciated this unfunded independent research and debate of children's health I hope you will consider a [\\$5 donation](#) for the up-keep of my website and continuation of my voluntary newsletters.

Only funded research is promoted to the public and universities do not promote student research. Hence the need for my website and newsletters to promote my independent research that is in the public interest.

My website [Vaccination Decisions](#) became necessary because the University of Wollongong [is not required to rectify the academic record to the public](#) when organised lobby group activists, such as Australian Skeptic Inc / SAVN, and other activists from the powerful industry-

Additionally, my book - [Vaccination: Australia's Loss of Health Freedom](#) - is now available. This book describes the history of the control of infectious diseases in Australia with an added chapter on the strategies that have been used to remove health freedom in Australia.

The Australian government NCIRS (the vaccine research and surveillance unit) has attempted to denigrate my research because I have shown that children's health has significantly declined as the Australian government added vaccines to the vaccination program. Peter McIntyre and Margaret Burgess are the founding directors of the NCIRS and they did not investigate this link. Here is my rebuttal of the false information these government vaccine advisors have provided about my research in the Vaccine journal - 3 years after my PhD research was published. The two other

medical complex provide false information about my university research in the mainstream media.

authors of this paper (Leask and Wiley were also NCIRS researchers) - [Judy Wilyman's response to Peter McIntyre and Margaret Burgess's Vaccine article that attempts to discredit my PhD.](#)
